Criterion Pictures is the non-theatrical distributor of Feature Films for many of Hollywood's Major Motion Picture Studios. We offer movies to the non-theatrical market (definition) on four primary mediums: 35mm, 16mm, VHS, Blu-Ray and DVD.

The majority of our films are available months before the home video release date. Our customers use these films for film programs across the country. Many Canadian schools, College and University Student Councils, Bus Companies, Hotels, Recreation Centres and Public Libraries show movies as fund raisers or special events on a regular basis. A one year license enables you to charge admission so that your costs can be recouped and fund-raising can begin.

Audio Cine Films In.
